"Thank you so much for your informative and interactive session as part of the MACD Master in Anti-Corruption) programme. The feedback from the participants was overwhelmingly positive, and they greatly appreciated your enthusiasm, philosophy, and unconventional methods, which were a perfect conclusion to their week in Geneva. Your teachings, combined with the exercises, provided a genuine awakening to societal structures and offered insights on finding the courage to enhance their emotional intelligence and confront their fears."

Feedback from the training programme "Psychological Features of Crisis Negotiations of Police Officers in Extreme Conditions of Service" (Ukraine):

"An interesting and unusual way of teaching the material, everything is easy to remember! The main mistake in negotiations is assumptions! That was the most interesting thing, as well as the fact that mastering your emotions and controlling them is the key to success."

- Vladislav Pankeev

"Unusual but interesting way of teaching - on the top level, using video materials and other devices. Steve is a good psychologist, an actor, and can transform himself thanks to his communication and experience from real-life situations."

- Kyrylo Fedchuk

MASTERING LEADERSHIP, NEGOTIATION & CONFLICT RESOLUTION

"Usually, lecturers present the material in a dry way, which is not the case with this expert. I would like to say that he is a high-level expert. He plunged into the magic of negotiations. I learnt how it is possible to alienate the other person or bring them closer to you with just a word. I discovered opportunities to change my own behaviour, and perhaps my whole life, for the better." - Oleksandr Kolot

"Steve is about depth of information, energy, positivity and chocolate. Excellent situational tasks for practicing negotiations."

- Evgeny Tsatsin

"I really liked the way the information was presented and reported. Great work with each police officers individually and together on how to negotiate and learn about yourself."
